

WEMA Werkzeug- und Maschinenbau GmbH

WEMA was founded in July 1992 in Olbernhau and started production on August 1, 1992 with a workforce of 8 employees at the Gerbergasse 4 + 5. Very soon after that, our own product program was developed. Today, a permanent workforce of 30 highly qualified and motivated employees work on:

- Automatic small components lathes **CONQUEST** for large turnings and **MINIMAT 25**, **MINIMAT 45**, **MINIMAT 65** in three sizes
- Copying lathes **JOKER 7000** and **JOKER 7000 CD**
 - *in conventional design*
 - *if requested with SPS control or CNC system*
- CNC controlled turning and milling Machine **JOKER 7000 CNC** and **JOKER 8000 CNC**
- Manual turning lathes **ALPHA 200/250**, **BETA 250**, **GAMMA 250/300** and **ALPHA OPTIMO**
 - *solid grey cast design, developed*
- Profile sharpening machine for V-copying **PROFI-S** sharpening machine **BLITZ** for copy lathe tools
- Belt grinding and sanding machine **PROFISANDER** for edges and curves and **CENTER DRILLING MACHINE**
- Universal drum **MINIMAT TRU TUMBLER**
- Today special-purpose machines are also part of the **WEMA** production range

In 1994 we extended our works to accommodate an increased production. In the year 2000 we built a new assembly hall together with a new showroom, a training-room and a large parking area for customer.

The company building in Olbernhau.
